## Invitation to Participate in RNCCO 23

While Disease Prevention and Treatment has always attracted high level of attention among the seven focus areas of **The Rotary Foundation (TRF)**, **Avoidable Blindness (AB)** has been attracting high level of attention under Disease Prevention and Treatment, not only in our district, but across many Rotary Districts in India.

To showcase some of the major service projects implemented by Rotary clubs in the area of AB and to disseminate information on latest technologies and best practices in Community Ophthalmology, our district in association with RABF is hosting the Second Rotary National Conference on Community Ophthalmology (RNCCO 23) on 2nd & 3rd September 2023 in the Culture Capital of India – Mysuru.

This conference will be unique in bringing together District Governors of nine Rotary Districts and will add great value not only to Rotarians and Corporates involved or interested in AB Service Projects, but also to Ophthalmologists who'd like to join hands with Rotary to serve the community.

**Rtn. H.R.Keshav, District Governor, D 3181  
Chairman, RNCCO 23 Organising Committee**

In 2019, India piped well past the WHO set target of 25% reduction in the Visual Impairment prevalence, from the line level of 2010. Blindness declined markedly by 47% and Moderate Visual Impairment more than halved (RAAB, 2019). India's eye-care performance is stupendous even by other measures and metrics, although they are cataract-centric. Rotary has played a significant role in this achievement.

Over the last 25 years, Rotary clubs across India have established / supported over 100 eye hospitals and have been supporting over 100,000 free cataract surgeries every year apart from distributing 100,000 free spectacles to school children. This conference shall be showcasing some of the recent Rotary AB projects, apart from honouring a few of the Ophthalmologists and Rotarians who have been silently working for the cause of Avoidable Blindness over the last couple of decades.

We invite you to participate in the conference to get enlightened and join us in our journey to prevent unnecessary blindness.

**Rtn. Dr. M.V.Ravikumar, Chairman, RABF  
Organising Secretary & Convenor, RNCCO 23**

## Who can attend RNCCO 23?

Rotarians, Ophthalmologists, Management Professionals of Eye hospitals, Equipment / Consumables suppliers to Ophthalmic industry, NGOs involved in eye-care, government officials involved with National Program for Control of Blindness & Visual Impairment, Post-graduate students and Fellows specialising in sub-specialities of Ophthalmology.

### What this Conference will offer?

Apart from a few Rotary leaders, several legendary ophthalmologists who have been serving the community will be sharing their experience, providing a sense of direction for the future AB projects. The technical sessions will cover topics like –

- » Role of Innovation and technology in Community Ophthalmology (CO)
- » CO beyond Cataract
- » Pediatric CO
- » Corporate and CO and
- » A Panel discussion on Rotary and Avoidable Blindness (AB)

An International session involving Rotarians from Portugal and UK who have done extensive work in the area of AB will join the conference virtually to share their experiences.

A few successful Rotary AB projects recently implemented will be show-cased through presentations. A few Eye-care institutions and Professionals who have been involved in Community Ophthalmology will be recognised for their services.
